

We connect you with

fiberglass

Fast. Stable. Futureproof.

Now in

Telekom is building a new, powerful fiberglass network where you live. Learn more about it now and benefit from the advantages of fiberglass very soon.

Here is what you can look forward to:

- **Fast:** High-speed surfing with downloading at up to 1,000 Mbit/s
- **Stable:** Guaranteed bandwidths
- **Futureproof:** Fiberglass lines form the foundation today and in the future for your new, more powerful Internet connection.
- **Parallel:** Stream films, play, surf, and learn online, and work in your home office all at the same time – without any loss in quality, of course.
- **Fair:** No difference in price between fiberglass rates and conventional Internet connections, but with better performance.
- **Easy:** No matter if you rent or own your residence – we take care of everything.

We're happy to provide consultation at your location.

Information about fiberglass is also available at telekom.de/glasfaser or at the free fiberglass service number: **0800 22 66100**.
