GERMANY - BEST 5G GAMING EXPERIENCE

Telekom is the Best 5G Gaming Experience in Germany, Q1-Q2 2026. The Ookla® Speedtest Award™ for 5G Gaming Experience is based on Game Score, which is composed of latency and jitter measurements taken to real world gamer servers, in addition to consumer-initiated performance metrics.

Methodology

Game Score™ is based on Ookla's consumer initiated Speedtest results as well as Consumer QoE™ latency and jitter measurements taken to real world game servers. Game Scores are composed of eight components, each measuring a different aspect of consumer gaming experience. Each of these components is evaluated and scored on a scale of 0-100 for each provider. Finally, scored components are combined in a weighted average to produce a Game Score for each eligible provider.

Game Score Components:
Latency: 50%
Jitter: 20%
Download Speed: 20%
Upload Speed: 10%
