Median Speeds (Mbps)

Median Loaded Latency (ms)

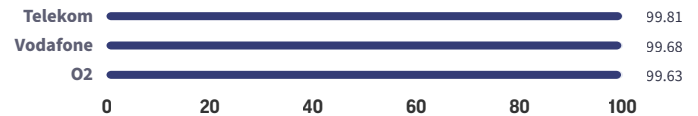

Acceptable Video Start Time – %

% of users who experience a video start time of less than 2 seconds, in a majority of playbacks.

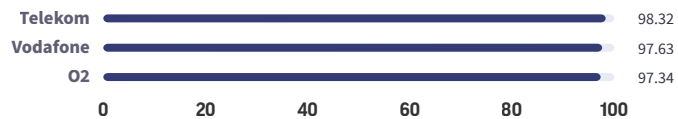

Uninterrupted Playback – %

% of users who experience no rebuffering events in a majority of playbacks.

Full HD Resolution – %

% of users who experience 1080p or higher resolution, in a majority of playbacks.

Web Page Load Time – seconds

Methodology

The Ookla Speedtest Award for Best Network is based on the Speedtest Connectivity Score™, providing a reliable measure of the overall fixed and mobile network connected experience. Speedtest Connectivity Score combines various real-world network performance metrics, such as speed, latency, and quality of experience for everyday activities like web browsing and video streaming. This methodology ensures that the results reflect a user's experience across multiple activities.

Speedtest Connectivity Score Components:
Speed Score: 50%
Web Browsing Score: 25%
Video Streaming Score: 25%
